

Washington Township Fire Department Standard Operating Procedure

Division 500: Maintenance
Section 502: EMS Tools & Equipment
Subject 502.01: Maintenance Tests - EMS
Supersedes:

Approved By:

Date: February 28, 2005

Page: 1 of 1

PURPOSE:

To establish a means for performance testing of critical equipment as recommended by nationally recognized standard or manufacturer recommendation.

RESPONSIBILITY:

Maintenance Department members will conduct the testing identified herein.

PROCEDURES:

The following testing will be completed as indicated:

COT (medic) TESTING – Will be conducted in February and August of each year by Maintenance Department members. Conducted tests will be performed according to manufacturer's recommendations. Any necessary or required service will also be performed at this time. Test results will be recorded on Form #63C - Cot Semi-Annual Service & Inspection.
