

TIPS FOR A SUCCESSFUL AUDITION

- Arrive at least 15 minutes before your scheduled audition.
- Check in with the stage manager when you arrive.
- Never go into the theatre space until you are instructed.
- Always bring a photo with you.
- Fill out your audition form in a neat and professional manner.
- Bring a resume with you complete with special skills such as gymnastics, playing an instrument or dancing.
- Keep all conversation & noise to a minimum while you wait.
- Your audition begins the moment you walk into the building! First impressions are crucial.
- Never talk during another person's monologue.
- When it's your turn to audition, state your name and the play or book your monologue is from. After your monologue, restate your name and say, "thank you".
- Speak slowly, loudly and clearly.
- If you forget your lines, keep going! Try to improvise or skip ahead to a part that you do remember. Another option is to say, "thank you" and act as if that is where you planned to stop anyway. There is no need for the Director to know you made a mistake. Never ask to start over.
- Have fun and relax!
